-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b)

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the head or hip of a pedestrian of claim 12, the actuator of claim 13, the motor of claim 14, the impact sensor of claim 15, the pedestrian of claims 15 and 19, the fusible portion of claim 17, the insert of claim 18, the hook lock of claim 19, the sensor of claim 19, the bottom of the linings of claim 20, the ends extending beneath the bottom of claim 20, the insert of claim 21, the overmolded insert of claim 21, the crimped insert of claim 21, the cooling unit of claim 22, and the front face of claim 23 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an

Art Unit: 3612

application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claim 21 is objected to because of the following informalities: a period should be inserted at the end of line 2. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 13-15 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 recites the limitation "side rails" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 17 recites the limitation "force-opposing means " in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3612

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 12, 16-17, 20, and 22-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Kanemitsu et al.

Kanemitsu et al. (5,077,885) disclose a connection for use in a motor vehicle having bodywork 4A, 4B adapted for receiving an impact, the motor vehicle includes a side rail 13 and a structural part 23 supporting the bodywork, the structural part comprises a top edge situated near a zone of the bodywork that might be impacted by a head or hip of a pedestrian, the connection comprises a collapsible force-opposing member 33 that enables the side rail to oppose a vertical force.

With regard to claim 16, the force-opposing member 33 comprises a fixed finger (or bolt) adapted to break above a predetermined vertical force threshold.

With regard to claim 17, the force-opposing member 33 comprise a fusible portion of the part.

With regard to claim 20, the motor vehicle includes fender linings 12 having a bottom, the structural part includes a plurality of ends, and the ends extend beneath the bottom of the fender linings and each end is secured indirectly to the fender linings by at least one fusible fastener.

With regard to claim 22, the structural part includes a cooling unit 51.

With regard to claim 23, the motor vehicle comprises a front face and the front face comprises the structural part.

Allowable Subject Matter

8. Claims 13-15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. Claims 18-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. Claim 21 is objected to as being dependent upon a rejected base claim and as containing a minor informality, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and correcting the minor informality.

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hilary Gutman whose telephone number is 571-272-6662.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Dayoan can be reached on 571-272-6659. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
